# Smartleads

Smartleads, developed by Block Technologies is a Web Application that helps users find qualified leads within different professional industries.

<https://www.smartlead.ai/>

The image shows a screenshot of the SmartLeads web application interface. The interface is divided into a sidebar on the left and a main content area on the right. The sidebar contains a navigation menu with the following items: Dashboard, Leads Center, Follow up, Purchase, Credits, Settings, and Account. The main content area displays a table of leads under the heading "Your Leads". The table has 7 columns: Company Name, Details, Monthly Bill, Provider, State, Zip Code, and Status. There are 6 rows of data. The first row shows Acme Corporation with a monthly bill of \$434.53, provided by EDF Energy in Canterbury, CT3, with an Active status. The second row shows Globex Corporation with a monthly bill of \$715.63, provided by PFP Energy in England, LE14, with an Active status. The third row shows Initech with a monthly bill of \$434.53, provided by Bulb in Canterbury, CT3, with a Disputed status. The fourth row shows Umbrella Corporation with a monthly bill of \$715.63, provided by SSE Southern Ele... in England, LE14, with an Active status. The fifth row shows Acme Corporation with a monthly bill of \$434.53, provided by EDF Energy in Canterbury, CT3, with an Active status. The sixth row shows Globex Corporation with a monthly bill of \$715.63, provided by PFP Energy in England, LE14, with an Active status. The interface also includes a "Manage Leads" toggle switch and a "Filter" button in the top right corner of the main content area. A hand cursor icon is visible over the "Filter" button.
